SALEM, - OREGON

Condensed Catalog and Price List

Fruits, Nuts and Ornamental
Trees and Plants

Fall 1925

Spring 1926

Salem Nursery Company

**Trees Carefully Grown, Carefully Selected
Carefully Packed**

TO OUR CUSTOMERS:

It is our intention to give your order placed with us the very best of care and attention. All stock is budded or grafted from selected trees so we know it will prove very satisfactory. Apple, Pear and Cherry trees are one year trees budded or grafted on two-year roots, while Peaches, Prunes, Plums, Apricots and Nectarines are on two-year roots. Ornamental stock is sold according to size and not age.

Prices in the list apply to first class stock in size listed and are subject to change without notice.

Order once and we are sure you will be coming back for additional stock.

READ CAREFULLY BEFORE ORDERING

GUARANTEE—All classes of nursery stock are perishable, consequently needing the best of care to protect them from weather conditions. Our guarantee covers the delivery of stock in first class condition, after that time it is at the planter's risk. When received in poor condition or where a shortage occurs we are to be notified immediately, giving all particulars in the case. Further than this we could not go, for there is the care, method of planting and weather conditions to be taken into account. Over these we have no control. This guarantee shall not in any case be construed to cover any sum greater than the original cost of the goods.

TERMS—Orders of \$20.00 or under require a \$2.00 deposit and if over that amount the advance is 10 per cent. Balance is cash on delivery. On orders carrying the cash advance we pay transportation charges.

CASH DISCOUNT—Orders of less than \$5.00 when paid in full at time of placing or within ten days, will carry an additional 10 per cent of nursery stock with selection of varieties to be made by the customer. Only orders placed before September 15th for Fall delivery, and February 1st for Spring delivery come under this offer.

On orders of \$50.00 or over, if paid in full when placed or within ten days after, will be given a 1 per cent per month cash discount. This is based upon time between placing of order and October 1st for Fall delivery and March 1st for Spring delivery.

TRANSPORTATION—We pay transportation charges where the advance deposit accompanies the order, otherwise the customer pays the amount.

Shipments are made by Parcel Post, Express or Freight, according to the size and contents of the order and distance shipped. We use our judgment as to the best method, unless specified on your order.

ORDER EARLY—Do not wait until time for planting to make up your order, as at that time some classes and varieties may be depleted. Stock for orders placed early will be reserved and forwarded at the proper shipping time. If you will make out your list and forward with instructions we will take care of it carefully.

SMALL ORDERS—Orders of less than \$2.00 cannot be handled without loss except where the full amount is sent with the order and an additional 50 cents to cover the packing charge.

Grimes Golden	Red Cheek Pippin	Winter Banana
Jonathan	R. I. Greening	Wolf River
King David	Russet, Golden	York Imperial
*Lady	Red Canada	

CHOICE HOME SPECIALS

Ideal — \$1.00 Each; \$10.00 Per Dozen

This is a comparatively new apple and is therefore not known or appreciated like some of the older and better known sorts. It is a large apple of golden yellow color, firm texture, crisp, sub-acid, good cooking and table apple during its season of July and August. As it becomes better known we believe it will displace the popular Yellow Transparent.

Waldron Beauty — \$1.00 Each; \$10.00 Per Dozen

This splendid variety originated near Oregon City, Oregon, was introduced by us a number of years ago, and we take pleasure in recommending it to you as a specially fine Autumn apple. It is of medium size, almost full red underlaid with a greenish yellow on the under side; meat is white, similar to the Snow or McIntosh Red. The tree is a very heavy producer and the apple has attracted attention at several fairs.

Vanderpool Red — \$1.00 Each; \$10.00 Per Dozen

This is probably one of the most promising varieties we have listed. It is from medium to large size, depending upon the altitude and conditions under which it is grown. Color, full bright red; very heavy producer and an exceptionally long keeper considering that it is also an apple of high

quality, which combination is rarely found to such a marked degree. No home orchard is complete without it and as it becomes better known it will take its place in the commercial ranks with the very best red apples.

Orengo — \$1.00 Each; \$10.00 Per Dozen

A high-class dessert apple. Almost full red overspread with numerous light colored dots. Flesh crisp, tender and juicy with a small core; flavor mild with a pleasing aroma. Tree hardy and vigorous. Fruit superior to McIntosh Red or Spitzenberg as a dessert apple. October to January.

CRAB APPLES

	Each	Each per 12
2-year headed	\$1.00	
1-year 4-6 ft.....	.85	.75
Florence	Red Siberian	Whitneys
Hyslop	Transcendent	Yellow Siberian

APRICOTS

Trees on Myro roots 5c per tree more.

	Each	Each per 12	Each per 25	Each per 50	Each per 100
Apricots 1-year 4-6 ft.....	1.00	.85	.70	.60	.50
Apricots 1-year 3-4 ft.....	.85	.75	.65	.55	.45
Blenheim on Peach	Moorpark on Peach	Tilton on Peach and			
and Myro	Newcastle on Peach	Myro			
J. L. Budd on Peach	Royal on Peach and	Wenatchee Moorpark			
	Myro	Peach			

TILTON — Best for Home Planting

Its large size, rich apricot color, high flavor, uniform ripening, sure and unusual productiveness, with frost resistant qualities, easily places the Tilton far in advance of all other varieties. To the planter who wants just a few for a home planting we strongly recommend the Tilton.

YAKIMENE — \$1.00 Each; \$10.00 Per Dozen

This fruit is a cross between a peach and an apricot; is larger than an apricot, but not as large as the average peach. The flesh is a combination of the peach and apricot, and is very delicious. As a home fruit, we especially recommend it.

CHERRIES

	Each	Each per 12	Each per 25	Each per 50	Each per 100
Sweet Cherries 1-year 4-6 ft.....	1.25	1.00	.90	.80	.75
Sweet Cherries 1-year 3-4 ft.....	1.00	.85	.80	.75	.70

Burbank		Yellow Spanish			

	Each	Each per 12	Each per 25	Each per 50	Each per 100
Sour Cherries 1-year 3-4 ft.....	1.25	1.00	.90	.80	.75
Sour Cherries 1-year 2-3 ft.....	1.00	.85	.80	.75	.70
Baldwin	Montmorency, Large		Ostheim		
*Early Richmond	*May Duke		Olivet		
English Morello	Late Duke		*Wragg		

Note—Varieties marked with (x) are available in two-year-old trees, as well as in yearlings. Montmorency are available on either Mazzard or Mahaleb roots. Be sure to specify the kind of root wanted.

***ROYAL STEWART — \$1.50 Each; \$15.00 Per Dozen**

A new variety of the Royal Ann type, originated in Lane County, Oregon, but maturing from four to six weeks later than this standard variety. Is very similar to the Royal Ann in general appearance, is fully as large as the average fruit of this well known variety but is a little sweeter and more pleasant to eat out of hand. Is a good variety for home canning and ripening at the season it does, escapes damage from rains which frequently are experienced when the Royal Ann is ripening. We recommend the Royal Stewart as a choice family orchard variety. It is also promising as a commercial fruit since it is firmer and a better shipper than the Black Republican.

PEARS

On Japanese Pear Root

	Each	Each per 12	Each per 25	Each per 50	Each per 100
Pears 1-year 4-6 ft.....	1.00	.85	.70	.60	.50

Johnson Cling	McKevitt's Cling	Red Bird
Henrietta Cling	Orange Cling	Triumph
		Tuscan

GILLINGHAM PEACH — \$1.25 Each; \$12.50 Per Dozen

A large yellow-meated, freestone peach, resembling the Early Crawford in form and appearance, ripening a few days later. A peach of fine flavor, that bears young and abundantly; free from peach curl. A variety we can recommend.

PLUMS

On Peach Root

Varieties prefixed with (**) are available on both peach and Myrobolan root. Those prefixed (*) are available on Myrobolan root only. Those with no prefix are on Peach root only. Varieties on Myrobolan root 5c per tree higher than following prices in quantities of 12 or more:

	Each	Each per 12	Each per 25	Each per 50	Each per 100
Plums on Peach, 1-year, 4-6 ft.....	1.00	.85	.70	.60	.50

PRUNES

On Peach Root

Varieties prefixed with (**) are available on both Peach and Myrobolan root. Those prefixed with (*) are available on Myrobolan root only. Those with no prefix are on Peach root only. Varieties on Myrobolan Root 5c per tree higher.

	Each	Each per 12	Each per 25	Each per 50	Each per 100
** Italian 6-8 ft.....	.85	.75	.55	.40	.35
** Italian 4-6 ft.....	.75	.65	.45	.35	.30
** Italian 3-4 ft.....	.60	.50	.35	.30	.25
New Oregon 4-6 ft.....	1.00	.85	.75	.65	.50

The New Oregon is thought to be a cross between the Italian and the Petite. It is large, oblong and slightly flattened on either side. The fruit has a bloom quite similar to the Italian, but the skin is more like that of the Petite. It blossoms a little later than the Italian and matures a little earlier. The originator, Mr. Andrew Vercler, of Salem, has fruited the New Oregon for several years. It has demonstrated its regularity and prolificness by producing a full crop each year. It suffers much less damage from autumn rains than does the Italian. It dries on a par with the Italian and as a table fruit we consider it much superior.

**DATE PRUNE — Coates 1418 (Trademarked)

	Each	Each per 12	Each per 25	Each per 50	Each per 100
1-year, 4-6 ft.....	1.50	1.25	1.00	.85	.75

Special Reduced Prices in Large Quantities.

Time is determining that the Date Prune is, as was first claimed, the greatest prune ever introduced and that it will revolutionize the prune industry of the country. Possessing as it does all the good qualities of the well known Petite, it combines also large size. To illustrate: as an evaporated or dried prune, the Italian grades 70 (or 70 prunes to a lb.); Petite 55, and the Date 30. Besides, the Date Prune runs as high an average as 50 per cent in sugar. A third big advantage is that it shrinks less in drying than does the Italian or Petite. For instance, it requires:

300 lbs. of Italian Prunes, green, to yield 100 lbs. of dried product.

250 lbs. of Petite Prunes, green, to yield 100 lbs. of dried product.

and only

200 lbs. of Date Prunes, green, to yield 100 lbs. of dried product.

Combining its advantages of:

Large sizes

Less shrinkage

High sugar content

Dependable bearing

it will yield upwards of \$3.00 revenue against \$1.00 derived from either the Italian or Petite. As a garden variety it cannot be surpassed.

DECIDUOUS ORNAMENTAL TREES

Deciduous trees are those that drop their leaves in the autumn. In the following assortment are varieties suitable for all conditions from slow growing Oaks to rapid growing Poplars. Varying conditions of soil, altitude and climate call for trees suitable to these individual conditions. If you are in doubt as to your requirements, we will be glad to advise with you without charge. The grade column represents size of plants.

(Note—12 trees of any one kind carry 10 per cent reduction from printed price.)

ALMOND—Hort. variety of *Prunus Glandulosa*.

	Grade	Each
Double pink flowering Almond.....	4-5 ft.	\$1.50
Double pink flowering Almond.....	3-4 ft.	1.25
(In habit, like the white flowering.)		
Double white flowering Almond.....	4-5 ft.	1.50
Double white flowering Almond.....	3-4 ft.	1.25
(Very attractive in spring. Covered with showy double roselike flowers. Good for shrubby borders.)		

ASH—*Fraxinus*

European Ash (<i>F. Excelsior</i>).....	6-8 ft.	2.50
(A lofty tree of rapid growth, with spreading head, pinnate leaves and black buds.)		

		Grade	Each
BALM OF GILEAD—(See Poplar.)			
BIRCH—Betula. (See also Weeping Varieties.)			
European White Birch (B. Alba).....	8-10 ft.	2.50	
European White Birch (B. Alba).....	6-8 ft.	2.25	
European White Birch (B. Alba).....	4-6 ft.	1.75	
(A beautiful tree with white bark and spray-like branches.)			
CATALPA—Catalpa			
Umbrella Catalpa (C. bignonioides nana).....	6-7 ft.	3.00	
(Formerly listed as Bungi)	1-yr. heads	3.00	
(Round and compact in growth. Leaves smaller than other varieties. Good for small lawns and formal gardens.)			
CHERRY—Prunus			
Common Chokecherry (Prunus virginiana).....	8-10 ft.	1.50	
Common Chokecherry (Prunus virginiana).....	6- 8 ft.	1.00	
(Small tree with rough speckled bark; leaves thin and oblong; flowers in short dense racemes in spring with leaves. Fruit red or amber colored; puckery.)			
CRAB—Malus (Flowering)			
Bechtel Crab (M. ioensis plena).....	3-4 ft.	1.50	
Bechtel Crab (M. ioensis plena).....	2-3 ft.	1.00	
(Medium sized ornamental tree of great beauty. Hardy. Early spring; has the appearance of being covered with small pink roses, double and sweet-scented.)			
Japanese Flowering Crab (M. floribunda).....	3-4 ft.	1.75	
Japanese Flowering Crab (M. floribunda).....	2-3 ft.	1.50	
(One of the handsomest; bright pink flowering buds, white flowers. Small yellow fruit.)			
Kaido Crab	3-4 ft.	1.75	
(A choice Japanese flowering variety producing a profusion of red flowers, and a small fruit that usually hangs on the tree all winter.)			
Redvein Crab (M. niedzwetskyana).....	4-5 ft.	1.75	
(Early species, remarkable for red color of flowers, branches, leaves and fruit).			
Scheidecker Crab (M. scheideckeri).....	3-4 ft.	1.75	
(Early. Small tree of pyramidal habit, with small, bright rose-colored flowers in great profusion.)			
DOGWOOD—Cornus.			
Pacific Dogwood (C. nuttalli).....	5-7 ft.	1.50	
Pacific Dogwood (C. nuttalli).....	3-5 ft.	1.25	
(A native tree of fine form and beautiful foliage, growing from 20 to 25 feet high. Produces white flowers three inches in diameter, early in spring before leaves appear. Foliage grayish green turning red in autumn. Desirable ornamental.)			
ELM—Ulmus. (See also Weeping Varieties.)			
American elm (U. americana).....	10-12 ft.	2.00	
American Elm (U. americana).....	8-10 ft.	1.75	
American Elm (U. americana).....	6- 8 ft.	1.50	
(A tall, graceful, wide-spreading tree with outward curving branches. Favorite avenue tree, rapid growth.)			

	Grade	Each
Corkbark Elm (<i>U. foliacea suberosa</i>).....	6-8 ft.	2.00
(Similar to English with exception of bark, which is corky.)		
English Elm (<i>U. campestris</i>).....	6-8 ft.	1.50
(Branches spreading, forming round open head. Foliage darker green and smaller than American species, remaining green in the Fall several weeks later. Good avenue tree.)		
HACKBERRY—Celtis.		
Hackberry (<i>C. occidentalis</i>) Bush Form.....	6-8 ft.	1.50
(Tree of strong spreading growth. Leaves resemble nettles. Flowers followed by numerous small orange red berries. Branches numerous and spread horizontally.)		
HAWTHORN—Crataegus.		
Carriere Hawthorn (<i>C. carrierei</i>).....	6-8 ft.	2.50
Carriere Hawthorn (<i>C. carrierei</i>).....	4-6 ft.	2.00
(Tree upright, with yellowish bark and deep green foliage which persists until quite late, making a fine contrast. Large white flowers produced in great profusion followed by bunches of brilliant scarlet large fruit hanging on until late winter, makes it very much admired.)		
Paul's Red Hawthorn (<i>Monogyna pauli</i>).....	4-6 ft.	2.00
(Small tree of very erect, quick growth. Flowers produced in great profusion in early summer; bright carmine and double. Berries large, dull red, and borne freely. Very fine.)		
Paul's white Hawthorn (<i>Monogyna pauli</i>).....	4-6 ft.	2.00
(Same as red flowering with exception of the color of flowers.)		
HONEYLOCUST—Gleditsia.		
Common Honeylocust (<i>G. triacanthos</i>).....	8-10 ft.	1.50
Common Honeylocust (<i>G. triacanthos</i>).....	6- 8 ft.	1.00
(Small flowers in racemes followed by pods often 1½ feet long. Good for park or street planting and makes impenetrable hedges if planted thickly and pruned severely.)		
HORSE CHESTNUT—Aesculus.		
Horse Chestnut—white (<i>A. hippocastanum</i>).....	6-7 ft.	2.50
Horse Chestnut—white (<i>A. hippocastanum</i>).....	4-5 ft.	2.00
Horse Chestnut—white (<i>A. hippocastanum</i>).....	3-4 ft.	1.50
(Sturdy tree of strong growth. Flowers white tinged with red in showy clusters produced in abundance. Excellent for shade tree.)		
LABURNUM—Laburnum.		
Golden Chain (<i>L. vulgare</i>) (Tree form).....	8-10 ft.	2.00
Golden Chain (<i>L. vulgare</i>) (Tree Form).....	6- 8 ft.	1.50
(A beautiful small tree of rather quick growth. Leaves clover shaped, soft, pleasing green; do not change color in fall. Flowers fragrant, bright yellow, in long drooping racemes, suggestive of yellow wistaria borne on a tree.)		
Golden Chain (<i>L. vulgare</i>) (Bush Form).....	6- 8 ft.	1.75
Golden Chain (<i>L. vulgare</i>) (Bush Form).....	4- 6 ft.	1.25
(See description above.)		

	Grade	Each
LINDEN—Tilia.....	No stock.	
LOCUST—Robinia (See also Honeylocust)		
Common Locust (<i>R. pseudoacacia</i>).....	No stock.	
MAGNOLIA—Magnolia. (<i>Magnolia purpurea</i>).....	No stock.	
MAPLE—Acer.		
Amur Maple (<i>A. ginnala</i>).....	8-10 ft.	2.00
Amur Maple (<i>A. ginnala</i>).....	6- 8 ft.	1.50
(Graceful shrub with handsome foliage turning red in autumn. Leaves three-lobed.)		
Coliseum Maple (<i>A. cappadocicum</i>).....	8-10 ft.	2.00
(Handsome oriental tree, symmetrical crown, foliage dark blood red at time of unfolding. Tree is rather small but on account of high color in early spring is used in shrub masses and color schemes.)		
Japanese Maple—green leaf. (<i>A. palmatum</i>).....	4-6 ft.	3.00
(Leaves deeply five-lobed; copper green in color. Dense in growth. Good as a single specimen on the lawn or in masses with tall shrubs.)		
Norway Maple (<i>A. platanoides</i>).....	10-12 ft.	2.25
Norway Maple (<i>A. platanoides</i>).....	8-10 ft.	2.00
Norway Maple (<i>A. platanoides</i>).....	6- 8 ft.	1.50
(A large handsome tree of rounded form, with very broad five-lobed, dark green shining leaves. One of most desirable for any location. Leaves turn pale yellow in autumn.)		
Painted Maple (<i>A. pictum</i>).....	8-10 ft.	2.00
Painted Maple (<i>A. pictum</i>).....	6- 8 ft.	1.50
(Handsome tree with bright green foliage. Leaves rather broad and short. Very desirable.)		
Purple Sycamore Maple (<i>A. pseudoplatanus purpurascens</i>)	6- 8 ft.	2.00
(A purple leaf form of Sycamore Maple.)		
Schwedler Maple (<i>A. platanoides schwedleri</i>).....	8-10 ft.	2.50
Schwedler Maple (<i>A. platanoides schwedleri</i>).....	6- 8 ft.	2.00
(A very attractive tree with round spreading head. Leaves bright red when young, changing to dark green.)		
Silver Maple (<i>A. dasycarpum</i>).....	8-10 ft.	1.25
Silver Maple (<i>A. dasycarpum</i>).....	6- 8 ft.	1.00
(Large tree of very quick growth. Bark nearly white. Leaves are deeply lobed and very variable in form, green above and silver beneath.)		
Spiderleaf Maple—Japanese red lace leaf (<i>A. palmatum ornatum</i>)	5.00 to 15.00	
(Small, low growing tree of spreading habit. Foliage finely and deeply cut. Red in spring and fading slightly during season. Very beautiful when used as single specimen or in groups for color schemes.)		
Sugar Maple (<i>A. saccharum</i>).....	10-12 ft.	2.00
Sugar Maple (<i>A. saccharum</i>).....	8-10 ft.	1.75
Sugar Maple (<i>A. saccharum</i>).....	6- 8 ft.	1.50
(Upright in growth and dense. Leaves turn a beautiful yellow or scarlet in Autumn. One of the most beautiful maples for street planting.)		
Sycamore Maple (<i>A. pseudoplatanus</i>).....	8-10 ft.	2.00

	Grade	Each
Sycamore Maple (<i>A. pseudoplatanus</i>).....	6- 8 ft.	1.75
(Branches horizontal and spreading, forming a broad round head. Bark smooth. Leaves large and rough.)		
Vine Maple (<i>A. circinatum</i>).....	5-7 ft.	1.50
Vine Maple (<i>A. circinatum</i>).....	3-5 ft.	1.00
(Handsome, round headed tree or shrub; beautiful with its delicate light green foliage turning to orange and scarlet in the fall.)		
MOUNTAIN ASH— <i>Sorbus</i> .		
European Mountain-ash (<i>S. aucuparia</i>).....	6-8 ft.	2.00
(Handsome tree of erect growth. Leaves pinnate; flowers white in flat clusters followed by clusters of red berries. A favorite street tree.)		
MULBERRY— <i>Morus</i> . (See also weeping varieties.)		
Downing Mulberry	10-12 ft.	3.00
Downing Mulberry	8-10 ft.	2.50
(Beautiful as a lawn tree and in addition yields abundant supply of large berries for about three months.)		
Russian Mulberry (<i>M. alba tatarica</i>).....	6-8 ft.	1.50
(Bushy in growth. Fruit edible, very sweet, usually violet or white. Often planted as undergrowth and to attract birds.)		
OAK— <i>Quercus</i> .		
English Oak (<i>Q. robur</i>).....	8-10 ft.	3.00
English Oak (<i>Q. robur</i>).....	6- 8 ft.	2.50
(Vigorous round-headed species with dark green, glossy foliage.)		
Common Red Oak (<i>Q. rubra</i>).....	8-10 ft.	3.00
Common Red Oak (<i>Q. rubra</i>).....	6- 8 ft.	2.50
(Beautiful Oak of rather rapid growth, forms large majestic tree. Foliage turns dark red in Autumn. Valuable for park and avenue planting.)		
Scarlet oak—(<i>Q. coccinea</i>).....	8-10 ft.	5.00
Scarlet Oak (<i>Q. coccinea</i>).....	6- 8 ft.	3.50
(Rapid grower and very satisfactory tree. Most valuable for its brilliant scarlet fall coloring. Leaves deeply divided; bright green and glossy. Rather narrow and open in growth.)		
PEACH—Hort. variety of <i>Amygdalus persica</i> .		
Double Pink Peach.....	4-6 ft.	1.50
Double Pink Peach	3-4 ft.	1.25
Double White Peach.....	4-6 ft.	1.50
Double White Peach	3-4 ft.	1.25
(A form of the common Peach with numerous double flowers. Very ornamental while in bloom and good if planted among coarse growing shrubs. Flowers both pink and white.)		
PLUM— <i>Prunus</i> .		
Double Flowering Plum (<i>P. triloba plena</i>).....	4-5 ft.	1.50
Double Flowering Plum (<i>P. triloba plena</i>).....	3-4 ft.	1.25
(Upright in growth with slender branches, completely covered with double pink flowers. Individual flowers one inch across. Good among tall shrubs.)		
Purple Leaf Plum (<i>P. cerasifera pissardi</i>).....	6-8 ft.	1.75

	Grade	Each
Purple Leaf Plum (<i>P. cerasifera pissardi</i>).....	4-6 ft.	1.50
(A small tree, whose leaves retain their color well through the summer. It is open in growth and much like the English plum. Most effective for color contrast.)		
POPLAR—Populus.		
Balm-of-Gilead Poplar (<i>P. candicans</i>).....	10-12 ft.	1.25
Balm-of-Gilead Poplar (<i>P. candicans</i>).....	8-10 ft.	1.00
(Tall large-headed tree of wonderfully rapid growth. Bark green on younger branches. Leaves dark green above, lighter beneath. Will thrive anywhere and is very fast growing.)		
Bolleana Poplar (<i>P. bolleana</i>).....	6-8 ft.	.75
(Tall narrow-topped tree. Leaves deeply lobed, woolly white underneath. Good for tall screens.)		
Bolle's (Bolleana).....	6-8 ft.	
\$27.50 per 50; \$50.00 per 100		
Canadian Poplar (<i>P. canadensis</i>).....	10-12 ft.	1.50
Canadian Poplar (<i>P. canadensis</i>).....	8-10 ft.	1.00
\$35.00 per 50; \$65.00 per 100		
Canadian Poplar (<i>P. canadensis</i>).....	6- 8 ft.	.75
(Extremely hardy tree of the Poplar family, growing farther north, and stands the cold better than any other cultivated variety. Desirable for exposed positions where other varieties will not grow.)		
Carolina (<i>P. eugenei</i>).....	14-16 ft.	
\$42.50 per 50; \$82.00 per 100		
Carolina (<i>P. eugenei</i>).....	12-14 ft.	
\$40.00 per 50; \$75.00 per 100		
Carolina Poplar (<i>P. eugenei</i>).....	10-12 ft.	1.25
\$37.50 per 100; \$70.00 per 100		
Carolina (<i>P. eugenei</i>).....	10-12 ft.	
Carolina Poplar (<i>P. eugenei</i>).....	8-10 ft.	1.00
\$35.00 per 50; \$65.00 per 100		
Carolina (Eugenei).....	8-10 ft.	
Carolina Poplar (<i>P. eugenei</i>).....	6- 8 ft.	.75
(A very rapid growing variety with large leaves. Grows to a large size in a short time. Valuable for street planting.)		
Lombardy Poplar (<i>P. nigra italica</i>).....	6-8 ft.	.75
\$22.50 per 50; \$40.00 per 100		
Lombardy Poplar (<i>P. nigra italica</i>).....	4-6 ft.	.65
(Widely known and esteemed for its decided individuality. Grows to a great height. Narrow and columnar. Forms a strong contrast with most other trees, hence of great value in landscape work.)		
Silver Poplar (<i>P. alba nivea</i>).....	8-10 ft.	1.00
Silver Poplar (<i>P. alba nivea</i>).....	6- 8 ft.	.75
Silver (Alba).....	6-8 ft.	
(Irregular in growth and very spreading. Leaves large, heart-shaped, woolly white underneath. Effective against background of evergreens or trees with dark foliage.)		
REDBUD—Cercis.		
American Redbud (<i>C. canadensis</i>).....	4-6 ft.	1.50
(Low-growing, spreading tree with good foliage.		

	Grade	Each
Conspicuous in early spring with its profusion of flowers which appear before the leaves.)		
SYCAMORE—Platanus.....	No stock.	

PENDULOUS DECIDUOUS TREES

	Grade	Each
BIRCH—Betula		
Cutleaf Weeping Birch (<i>B. alba gracilis</i>).....	6-8 ft.	2.50
Cutleaf Weeping Birch (<i>B. alba gracilis</i>).....	4-6 ft.	2.00
(Good tree for the lawn with white bark, drooping branches, and finely cut foliage.)		
CHERRY—Prunus (Japanese Weeping)		
Shidare-higan (<i>P. subhirtella pendula</i>)..... 1-yr hds	5 ft.	3.00
(A dainty weeping tree with slender and gracefully drooping branches. The flowers rose pink, borne all along the branchlets early in spring before leaves appear.)		
ELM—Ulmus		
Camperdown Elm (<i>U. glabra camperdowni</i>) 1-yr hds	6-7 ft.	2.75
(Form of Scotch Elm with long pendulous branches, limbs often spreading horizontally. Quite unusual in habit of growth. Makes good arbor on a large lawn.)		
LOCUST—Robinia.		
Rose-acacia—top graft (<i>R. hispida</i>)..... 1-yr hds	5 ft.	3.00
(A pretty low tree with hairy branches and leaves with showy flowers in loose clusters. Good in masses or on dry banks.)		
MULBERRY—Morus.		
Teas Weeing Mulberry (<i>M. alba tatarica pendula</i>) 1-yr hds	5 ft.	2.50
(A small tree with drooping branches and dense, green foliage.)		
PEA-TREE—Caragana.		
Weeping Pea-Tree (<i>C arborescens pendula</i>) 1 yr hds	3 ft.	2.00
(Weeping form of Pea-tree. Grafted 3-foot heads.)		
WILLOW—Salix		
Babylon Weeping Willow (<i>S. Babylonica</i>).....	No. stock.	
Kilmarnock Willow (<i>S. caprea pendula</i>)..... 1-yr hds	5 ft.	2.50
(Generally grafted on stems about five feet high. Branches spreading and drooping, forming an umbrella-shaped head.)		

DECIDUOUS ORNAMENTAL SHRUBS

This class of plants succeed almost everywhere and therefore are extensively used. They are inexpensive, easily handled, and with a minimum of attention will yield greater returns in pleasure to their owner, as well as add more beauty and value to a property than an equal expenditure in anything else. The planting of shrubbery is an investment rather than an item of expense. As they grow in age they increase in beauty, and add value to any property. The following list contains a splendid assortment.

ALTHEA—(See Shrub-Althea).

	Grade	Each
BARBERRY—Berberis.		
Japanese Barberry (<i>B. thunbergi</i>).....	24-30 in.	1.50

	Grade	Each
Wilsons Barberry (<i>B. wilsonae</i>).....	24-30 in.	1.50
Wilsons Barberry (<i>B. wilsonae</i>).....	18-24 in.	1.00
(Shrub of erect habit with upright or arching branches. Foliage light green with bronze tips, turning to brilliant scarlet in the fall. Flowers lemon yellow. Berries light red.)		
Common Bladder-senna (<i>C. arborescens</i>).....	4-6 ft.	1.00
(Shrub with light green leaves. Bears numerous red, pea-shaped flowers followed by curious bladder-like seed pods, usually reddish.)		
BUFFALO BERRY—Shepherdia.		
Silver Buffalo Berry (<i>S. argentia</i>).....	18-24 in.	.75
(Low, dense-growing shrub with gray or silvery foliage. Clusters of small flowers along stem. Fruit red-yellow, about size of a pea produced in abundance. Good for seashore planting or sandy banks.)		
BURNING BUSH—(See Euonymus).		
BUTTERFLY BUSH—Buddleia.		
Oxeye Butterfly Bush (<i>B. davidi magnifica</i>).....	2-3 ft.	.75
(Beautiful arching shrub of robust habit; foliage bright green, long and narrow; flowers deep rose-purple with orange eye and margin of petals reflexed. Blooms in August.)		
BUTTON BUSH—Cephalanthus.		
Common Button Bush (<i>C. occidentalis</i>).....	18-24 in.	.50
(A pretty shrub with good foliage and attractive flowers in dense globular heads.)		
CALYCANTHUS—(See Sweetshrub).		
CINQUEFOIL—Potentilla.		
Shrubby Cinquefoil (<i>P. fruticosa</i>).....	2-3 ft.	.75
(Good, dwarf shrub with dense, narrow, gray-green foliage. Many single flowers during the summer. Particularly good for swamps and rocky places.)		
COTONEASTER—Cotoneaster.		
Rock Cotoneaster (<i>C. horizontalis</i>).....	12-18 in.	1.25
(One of best trailing shrubs. Branches grow almost on ground. Leaves very small turning red during winter. Flowers pinkish white. Berries bright red, borne in great profusion. Nearly deciduous.)		
CURRANT—Ribes.		
Double Winter Currant (<i>R. sanguineum flore pleno</i>)....	3-4 ft.	1.00
(Branches red and smooth; leaves broad and dark green; flowers produced freely followed by blue-black fruit.)		
Golden Currant (<i>R. odoratum</i>).....	4-5 ft.	1.00
(Foliage shiny. Flowers yellow tipped with red, borne in clusters all along the branches. Have pleasing, spicy fragrance.)		
DEUTZIA—Deutzia.		
Crenata Deutzia (<i>D. scabra crenata</i>).....	4-5 ft.	1.25
Crenata Deutzia (<i>D. scabra crenata</i>).....	3-4 ft.	1.00
(A pleasing shrub with sweet scented white and pink flowers in loose clusters.)		
Lemoine Deutzia (<i>D. lemoinei</i>).....	2-3 ft.	1.00
(Beautiful vigorous shrub. Flowers white; extra large.)		

	Grade	Each
Pride of Rochester (<i>Scabra</i>).....	4- 6 ft.	1.50
(Tall-growing shrub. Flowers large and double; white, tinged with pink on back of petals.)		
Slender Deutzia (<i>D. gracilis</i>).....	12-18 in.	.75
(Round and dense in growth. Flowers white, fragrant, numerous; produced in small racemes on arching branches. A most useful low-growing shrub.		
Waterer Deutzia (<i>D. scabra watereri</i>).....	4-6 ft.	1.50
(Good variety with very large, double white flowers, tinged with pink; borne in large loose clusters. Robust grower and very hardy.		
DOGWOOD— <i>Cornus</i> .		
Gouchault Dogwood (<i>C. alba gouchaulti</i>).....	2-3 ft.	.75
(Variety Tartarian Dogwood with variegated leaves.)		
Tartarian Dogwood (<i>C. alba</i>) (Red Branch).....	3-4 ft.	1.25
Tartarian Dogwood (<i>C. alba</i>) (Red Branch).....	2-3 ft.	1.00
(Shrub with erect stem and bright red branches. Flowers white. Fruit light bluish, sometimes white.		
ELAEAGNUS— <i>Elaeagnus</i> .		
Russian-olive (<i>E. angustifolia</i>).....	4-6 ft.	1.25
(A large shrub with silvery, spiny branches; leaves light green above, silvery white beneath. Flowers bell-shaped, yellow within and silvery on the outside. Berries lemon yellow.)		
Silverberry (<i>E. argentea</i>).....	2-3 ft.	1.00
(Flowers fragrant; leaves silvery; fruit bright red; showy. Very pretty shrub.)		
ELDER— <i>Sambucus</i> .		
Cutleaf European Elder (<i>S. nigra laciniata</i>).....	5-7ft.	1.00
(Shrub with dark green foliage deeply cut and incised.)		
Scarlet Elder (<i>S. pubens</i>).....	4-6 ft.	1.00
(A pyramidal shrub with large deep green foliage and showy red fruit in autumn. Good among other coarse shrubs, particularly in moist soils.)		
Siebold Elder (<i>S. sieboldiana</i>).....	6-8 ft.	1.00
Siebold Elder (<i>S. sieboldiana</i>).....	4-6 ft.	.75
(Foliage strongly marked with creamy white.)		
EUONYMUS— <i>Euonymus</i> .		
European Burning Bush (<i>E. europaeus</i>).....	4-6 ft.	1.00
European Burning Bush (<i>E. europaeus</i>).....	3-4 ft.	.75
(A pretty, upright growing shrub with attractive foliage. Particularly handsome in fall, with its scarlet berries. Excellent for the shrubbery border.		
FALSE SPIREA— <i>Sorbaria</i> .		
Ural False Spirea (<i>S. sorbifolia</i>).....	18-24 in.	.75
(Deciduous shrub; leaves resembling those of the Mountain Ash. Flowers white, in showy panicles. Well adapted for borders of shrubberies, and woods, or for planting on banks of rivers. Handsome bright green foliage; appears early in spring.)		
FILBERT— <i>Corylus</i> .		
Purple Filbert (<i>C. avellana atropurpurea</i>).....	2-3 ft.	1.00
(Spreading in growth. Leaves remain deep purple all summer. Good among other shrubs.)		

	Grade	Each
FORSYTHIA—Forsythia.		
Border Forsythia (<i>F. intermedia</i>).....	4-6 ft.	1.00
(Closely resembles <i>suspensa</i>).		
Weeping Forsythia (<i>F. suspensa</i>).....	3-4 ft.	1.00
(Shrub with weeping branches. Flowers golden yellow; striped orange yellow within. Foliage good.)		
HONEYSUCKLE—Lonicera.		
Morrow Honeysuckle (<i>L. morrowi</i>).....	3-4 ft.	1.00
(One of the most useful hardy shrubs. Upright and dense in growth. Flowers freely and is covered with bright red fruit from August until Winter.)		
Tatarian Honeysuckle (<i>L. tatarica</i>).....	4-6 ft.	1.25
Tatarian Honeysuckle (<i>L. tatarica</i>).....	3-4 ft.	1.00
(Very attractive useful shrub with abundance of fragrant flowers in spring, and bright red fruit in Autumn.)		
White Tatarian Honeysuckle (<i>L. tatarica alba</i>).....	3-4 ft.	1.00
(Same as Tatarian Honeysuckle with white flowers.)		
HYDRANGEA—Hydrangea.		
House Hydrangea (<i>H. opuloides</i>).....	6-12 in.	.85
(Large flowers, pink or blue.)		
Peegee Hydrangea (<i>H. paniculata grandiflora</i>) Bush....	24-30 in.	1.50
Peegee Hydrangea (<i>H. paniculata grandiflora</i>) Bush....	18-24 in.	1.25
(Flowers white in very large pointed panicles at end of branches during late summer. The flowers remain on bush for a long time, turning pinkish. Especially adapted to cold sections.)		
Peegee Hydrangea (<i>H. paniculata grandiflora</i>) Tree....	3-4 ft.	2.50
Peegee Hydrangea (<i>H. paniculata grandiflora</i>) Tree....	2-3 ft.	2.00
(Same as above, except trained in tree form.)		
Snowhill Hydrangea (<i>H. arborescens grandiflora</i>).....	18-24 in.	1.50
(Erect in growth; leaves light green; flowers borne in great masses, practically covering shrub. Very showy and useful.)		
INDIGOBUSH—Amorpha.		
Indigobush (<i>A. fruticosa</i>).....	4-6 ft.	1.00
(Very ornamental. Large spikes of violet-purple, pea-shaped flowers in narrow drooping clusters.)		
JETBEAD—Rhodotypos.		
Jetbead (<i>R. kerrioides</i>)	2-3 ft.	.75
(Very ornamental shrub with bright foliage and single white flowers, followed by shiny black fruits in autumn and winter.)		
KERRIA—Kerria.		
Double Kerria (<i>K. japonica flore pleno</i>).....	2-3 ft.	1.00
(Same as Kerria with double flowers)		
Kerria (<i>K. japonica</i>).....	3-4 ft.	1.00
(Foliage deep green and very dense. Branches vivid green and particularly showy in winter. A very graceful shrub.)		
LILAC—Syringa.		
Common Lilac (<i>S. vulgaris</i>).....	3-4 ft.	1.00
Common Lilac (<i>S. vulgaris</i>).....	2-3 ft.	.75
(The most common of lilacs. Useful in masses of shrubbery, and often used in making coarse hedges or screens.)		

	Grade	Each
Common White Lilac (<i>S. vulgaris alba</i>).....	3-4 ft.	1.00
(White flowering form of the Common Lilac).		
Common White Lilac (<i>S. vulgaris alba</i>).....	2-3 ft.	.75
President Grevy Lilac.....	2- 3 ft.	1.50
President Grevy Lilac.....	18-24 in.	1.25
(Bluish Lilac. Very double. Flowers unusually large and showy; very handsome.)		
MOCK ORANGE—Philadelphus.		
Big Scentless Mock Orange (<i>P. grandiflorus</i>).....	6-8 ft.	1.00
(Tall, graceful growing shrub producing flowers from 1½ in. to 2 in. in diameter, of creamy white color, good for borders and screening effects.)		
Gordon Mock Orange (<i>P. gordonianus</i>).....	6-8 ft.	1.00
(Similar in growth to the above flowers; pure white, appearing in June or July.)		
Lewis Mock Orange (<i>P. lewisii</i>).....	6-8 ft.	1.00
(Not so strong a grower as the foregoing varieties. Flowers large, and abundant. Does well throughout the Northwest.)		
Sweet Mock Orange (<i>P. coronarius</i>).....	6-8 ft.	1.25
(Hardy and vigorous. Upright growing shrub with arching branches. Large, handsome foliage. Flowers fragrant; pure white, in dense clusters. An old favorite.)		
Zeyher Mock Orange.....	4-6 ft.	1.00
(Shrub with spreading, arching branches. Flowers usually five petals; pure white, slightly fragrant.)		
NINEBARK—Physocarpus.		
Goldleaf Ninebark (<i>P. opulifolius luteus</i>).....	3-4 ft.	1.00
Goldleaf Ninebark (<i>P. opulifolius luteus</i>).....	2-3 ft.	.75
(Hardy shrub with golden foliage of erect habit, bearing heads of whitish flowers, appearing late in spring. Well adapted for shrubberies, and will grow in almost any soil.)		
PEARLBUSH—Exochorda.		
Common Pearlbush (<i>E. grandiflora</i>).....	3- 4 ft.	1.25
Common Pearlbush (<i>E. grandiflora</i>).....	18-24 in.	1.00
(Large shrub blooming early in spring. Covered with purest white blossoms. The common name is from the pearly flower buds, which are globular just before they open.)		
PEA-TREE—Caragana.		
Siberian Pea-Tree (<i>C. arborescens</i>).....	4-6 ft.	1.20
Siberian Pea-Tree (<i>C. arborescens</i>).....	3-4 ft.	.85
(Showy dwarf tree or shrub, with pea-shaped flowers.)		
PRIVET—Ligustrum.		
Amur Privet (<i>L. amurense</i>).....	3-4 ft.	.75
(Branches upright. Foliage oval and similar to Ibotia. It is often used for hedges and can be made very dense.)		
Ibotia Privet (<i>L. ibotia</i>).....	3-4 ft.	.75
(Hardest Privet. Used as hedge plant. Low, dense shrub with horizontal branches. Foliage dark and oval. Flowers fragrant. Foliage turns a beautiful		

	Grade	Each
wine color in autumn, remaining well into winter. Especially attractive in fruit.)		
Regel Privet (<i>L. ibota regelianum</i>).....	2-3 ft.	.75
(Low, dense shrub with almost horizontal spreading branches, and usually oblong hairy leaves.)		
QUINCE— <i>Cydonia</i> .		
Flowering Quince (Japanese) (<i>C. japonica</i>).....	12-18 in.	1.25
(One of the most effective spring flowering shrubs. Flowers large and produced in masses. Foliage dark glossy green. Good for hedges or massing in shrub- bery border. Blooms brilliant scarlet.)		
SHRUB-ALTHEA— <i>Hibiscus Syriacus</i> .		
(Erect and open in growth. Flowers in various colors. One of few hardy shrubs blooming in Au- gust and September.)		
Amplissimus, double rosy red.....	2-3 ft.	1.50
Bicolor, white with red marks.....	2-3 ft.	1.50
Boule de Feu, double red.....	2-3 ft.	1.50
Jeanne d'Arc, pure white, double.....	2-3 ft.	1.50
Lady Stanley, rosy white, semi-double.....	2-3 ft.	1.50
Paeoniflorus, white with red center.....	2-3 ft.	1.50
SNOWBALL—(See <i>Viburnum</i>).		
SNOWBERRY— <i>Symphoricarpos</i> .		
Common Snowberry (<i>S. racemosus</i>).....	2-3 ft.	.75
(An upright shrub valued for its waxy, showy ber- ries in autumn. Very satisfactory in masses in shrubbery border.)		
Coralberry (<i>S. vulgaris</i>).....	3-4 ft.	.85
Coralberry (<i>S. vulgaris</i>).....	2-3 ft.	.65
(A useful shrub for covering banks and dry spots. Spreading in habit. Long slender branches bend gracefully toward the ground. In Autumn and Win- ter it is covered with racemes of currant-like fruit.)		
SPIREA— <i>Spiraea</i> .		
Anthony Waterer	18 in	.50
(Form of <i>Bumalda</i> with abundance of showy, crim- son flowers. One of the most useful low shrubs.)		
Bumalda <i>Spiraea</i> (<i>S. bumalda</i>).....	18-24 in.	.50
(Compact, low growing shrub with good dense foli- age. Sometimes variegated with pink and white while young. Flowers in showy flat clusters, borne on erect stems. Excellent in masses in front of taller shrub.)		
Double Bridalwreath (<i>S. prunifolia plena</i>).....	2-3 ft.	1.00
(Flowers about one quarter inch across, in dense racemes along slender upright branches. A pretty shrub with dark green shining foliage that takes on a brilliant autumn color.)		
Douglas <i>Spiraea</i> (<i>S. douglasi</i>).....	2-3 ft.	.75
(Upright in habit. Red brown branches; dull green foliage. Dense spikes of deep pink flowers. Good for hillsides and dry places.)		
Oriental <i>Spiraea</i> (<i>S. media</i>).....	3 ft.	.85
(Desirable hardy shrub of vigorous growth. Leaves		

	Grade	Each
light green above; bluish green beneath. Showy pure white flowers.)		
Pink Japanese Spirea (<i>S. japonica ruberrima</i>).....	2-3 ft.	1.00
Pink Japanese Spirea (<i>S. japonica ruberrima</i>).....	1-2 ft.	.75
(Upright in growth with dull green leaves, and flat clusters of dark flowers, produced on erect branches. Low shrub, good for massing.)		
Reeves Spirea (<i>S. reevesiana</i>).....	3-4 ft.	1.00
Reeves Spirea (<i>S. reevesiana</i>).....	2-3 ft.	.85
(Medium size shrub, with long, narrow leaves. Flowers pure white and large. Borne profusely in dense heads. Practically evergreen. Very fine.)		
Thunberg Spirea (<i>S. thurbergi</i>).....	12 in.	.85
(Spreading in growth with arching, slender branches and light green, dense foliage. Flowers in long racemes on the branches. One of the earliest to flower and retains its fine, delicate foliage late into fall. Useful, low-growing shrub.)		
Vanhoutte Spirea (<i>S. vanhouttei</i>).....	3-4 ft.	1.00
Vanhoutte Spirea (<i>S. vanhouttei</i>).....	2-3 ft.	.75
(One of most handsome and useful of hardy shrubs. Flowers in flat clusters about one and one-half inches across; produced on spreading, arching branches. Foliage dense, deep green.)		
White Japanese Spirea (<i>S. japonica ovalifolia</i>).....	18-24 in.	.50
(Small shrub and profuse bloomer.)		
Willowleaf Spirea (<i>S. salicifolia</i>).....	4-5 ft.	.85
(Erect in growth. Foliage dull green. Flowers in narrow panicles about six inches long. Good for dry spots or hillsides.)		
STEPHANANDRA—Stephanandra.		
Cutleaf Stephanandra (<i>S. flexuosa</i>).....	18-24 in.	.85
(A beautiful low shrub with very ornamental, deep green, dense foliage. Branches spreading and drooping. Flowers insignificant in small terminal panicles.)		
SUMAS—Rhus.		
Smooth Sumas—(<i>R. glabra</i>).....	3-4 ft.	1.00
(Good for massed planting where a tall, coarse growth is desired. Leaflets about six inches long; narrow and light green. Fruits in large, showy clusters in the Autumn.)		
Staghorn Sumac (<i>R. typhina</i>).....	5-7 ft.	1.50
(One of most brilliant plants in Autumn. Lovely foliage and velvety bark.)		
SWEETSHRUB—Calycanthus.		
Common Sweetshrub (<i>C. floridus</i>).....	12-18 in.	.50
(Foliage large, deep, glossy green. Flowers chocolate brown. Sweet scented; shaped like pineapples.)		
TAMARIX—Tamarix.		
Amur Tamarix	3-4 ft.	1.00
(Fin foliage, and handsome flowering shrub, thriving in all soils. Bears wind exposure. Flowers pink; long, tapering clusters.)		

	Grade	Each
VIBURNUM—Viburnum.		
Common Snowball (<i>V. opulus sterilis</i>).....	2-3 ft.	1.00
(Dense and spreading in growth. Very decorative while in bloom. Flower-clusters sterile. Globose and about three inches across. Borne in great profusion on drooping branchlets.)		
European Cranberrybush (<i>V. opulus</i>).....	2-3 ft.	1.00
(Upright and spreading in growth with smooth, light gray branches and broad rough leaves; flat heads of flowers about three or four inches across. Clusters of decorative fruit begin to color by the end of July, remaining on the branches and keeping their bright scarlet color until spring.)		
Japanese Snowball (<i>V. tomentosum plicatum</i>).....	12 in.	1.00
(A strong-growing shrub with spreading branches and large deep green rough leaves. Flower-clusters globose, about three inches across. One of the finest shrubs in existence. The fall coloring of the foliage is especially fine.)		
WEIGELA—Weigela.		
Belle de Boskoop	3 ft.	1.25
(A choice variety producing dark red flowers. Foliage heavy dark green. Good for either specimen plant or for massing.)		
Eva Rathke	18-24 in.	1.25
(Most beautiful of Weigelas. Produces gorgeous crimson flowers freely throughout the season.)		
Gratissima (<i>hybrida gratissima</i>)	4-5 ft.	1.25
(Light pink flowers.)		
Mme. Lemoine	4-5 ft.	1.25
(Showy white flowers changing to pink.)		
Pink Weigela (<i>W. rosea</i>).....	2-3 ft.	1.00
(Very showy with handsome rose colored flowers.)		
Snow Weigela (<i>hybrida candida</i>).....	3-4 ft.	1.00
(Flowers pure white.)		
Vanhoutte Weigela (<i>hybrida vanhouttei</i>).....	3-4 ft.	1.25
(Flowers pink, shaded carmine.)		
Variegated Weigela	18-24 in.	1.25
(Dwarf form with attractive foliage. Green variegated with yellowish white. Flowers rose colored; very desirable.)		

HEDGE PLANTS

BARBERRY—Berberis.

	Grade	Per 25	Per 50	Per 100	Per 500
Japanese Barberry (<i>B. thunbergi</i>)	6-12 ft.	5.00	8.00	15.00	62.50
(Flowers yellow. Densely covered with bright-colored solitary fruits in Winter. Foliage red in Autumn and early Winter.)					

BOX—Buxus.

Truedwarf Box (<i>B. sempervirens suffruticosa</i>)	21 4 in.	7.50	13.00	25.00
---	----------	------	-------	-------

Truedwarf Box (<i>B. sempervirens suffruticosa</i>)	4- 8 in.	10.00	18.00	35.00
(Well known, round leaf, very dwarf form; much used for edging beds and walks. Can be kept from 4 in. to 12 in. high with trimming.)				
Truetree Box (<i>B. sempervirens arborescens</i>)	6-12 in.	12.00	21.00	40.00
(Variety with larger leaves: somewhat faster growth, and will make small tree later.)				
PRIVET— <i>Ligustrum</i> .				
California Privet (<i>L. ovalifolium</i>)	18-24 in.	5.00	8.00	15.00 62.50
(Strong growing pyramidal shrub with bright green medium-sized leaves. White flowers in June. Good hedge plant.)				
European Privet (common) (<i>L. vulgare</i>)	18-24 in.	4.00	7.00	12.50 50.00
(Leaves small and dark green. Spikes of fragrant white flowers in June, followed by clusters of dark, shiny berries.)				

EVERGREEN TREES

Our Evergreen Trees are all "balled and burlapped" when shipped—that is, dug with a ball of earth, protecting the roots, and then wrapped in burlap, insuring the greatest possible degree of safety in planting. In ordering any of these trees, be sure and indicate on your order the size of tree wanted. We have indicated below the sizes in which each can be furnished. Kindly conform to our list:

ARBORVITAE—*Thuja*.

	Grade	Each
American Arborvitae (<i>T. occidentalis</i>).....	3- 4 ft.	4.00
American Arborvitae (<i>T. occidentalis</i>).....	2- 3 ft.	3.00
(A tree of varying heights. Foliage bright green; yellow-green beneath.)		
American Globe Arborvitae (<i>T. oc. globosa</i>).....	18 in.	2.50
(A globe-shaped form with slender branches and bright green foliage. Not very compact.)		
	Grade	Pair
American Pyramidal Arborvitae (<i>T. oc. pyramidalis</i>)....	24-30 in.	5.50
(Columnar upright habit. Green cedar-like foliage. Especially desirable where striking formal effects are essential. One of the hardiest.)		
	Grade	Each
Goldspot Arborvitae (<i>T. oc. aureo-variegata</i>).....	24-30 in.	2.50
Goldspot Arborvitae (<i>T. oc. aureo-variegata</i>).....	18-24 in.	2.00
(A very desirable upright form. Foliage marked yellow.)		
Hovey Arborvitae (<i>T. oc. hoveyi</i>).....	2- 3 ft.	3.00
(Dwarf dense ovate form, with bright green foliage.)		

	Grade	Each
Little Globe Arborvitae (<i>T. occidentalis nana</i>).....	18 in.	5.00
Little Globe Arborvitae (<i>T. occidentalis nana</i>).....	12-18 in.	4.00
(A dwarf compact little tree. Foliage darker and more compact than the American Globe.)		
	Grade	Each
Threadleaf Arborvitae (<i>T. oc. filiformis</i>).....	18-24 in.	2.25
Threadleaf Arborvitae (<i>T. oc. filiformis</i>).....	12-18 in.	2.00
(Dark green foliage, with thread-like branches.)		
Ware Arborvitae (<i>T. oc. wareana</i>).....	24-30 in.	2.25
Ware Arborvitae (<i>T. oc. wareana</i>).....	18-24 in.	2.00
(A very distinct form of nearly globular shape when young. Foliage unusual shade of sage-green. Very compact, regular and handsome.)		
CEDAR— <i>Cedrus</i> .		
Cedar of Lebanon (<i>C. libani</i>).....	18-24 in.	3.00
(Large and beautiful. Commend it for parks and gardens. Foliage dark green; hardy variety.)		
CHAMAECYPARIS—		
	Grade	Pair
Goldenplume Retinospora (<i>C. pisifera plumosa aurea</i>).....	18-24 in.	6.00
Goldenplume Retinospora (<i>C. pisifera plumosa aurea</i>).....	12-18 in.	5.00
(Compact little tree. The young plume-like growth of golden color.)		
Golden Sawara Retinospora (<i>C. pisifera aurea</i>).....	30-36 in.	7.00
(Upright, graceful tree, with somewhat pendulous branchlets, the tips of which are golden.)		
Green Columnar Cypress (<i>C. lawsoniana erecta viridis</i>).....	18-24 in.	5.00
(Dense columnar habit and bright green foliage.)		
	Grade	Each
Moss Retinospora (<i>C. pisifera squarrosa</i>).....	12-18 in.	2.00
(Densely branched, bushy tree or shrub, with spreading, feathery branchlets. Very distinct and beautiful variety.)		
Nootka Cypress (<i>C. nootkatensis</i>).....	3 ft.	3.00
(Large tree with ascending branches. Pendulous at extremities. Leaves dark green.)		
Plume Retinospora (<i>C. pisifera plumosa</i>).....	18-24 in.	2.50
Plume Retinospora (<i>C. pisifera plumosa</i>).....	12-18 in.	2.00
(Foliage dense, bright green, plume-like and delicate. Excellent for grouping with other evergreens.)		
Scarab Cypress (<i>C. lawsoniana alumi</i>).....	12-18 in.	2.50
(Of columnar habit. Foliage of bluish metallic hue. The best columnar form.)		
Thread Retinospora (<i>C. pisifera filifera</i>).....	12-18 in.	2.50
(A very decorative tree, with slender, thread-like gracefully pendulous branches.)		
CRYPTOMERIA— <i>Cryptomeria</i> .		
	Grade	Pair
Common Cryptomeria (<i>C. japonica</i>).....	4-6 ft.	5.00
Common Cryptomeria (<i>C. japonica</i>).....	3-4 ft.	4.00
(Large, pyramidal tree, with fern-like upward spreading branches. A general favorite.)		
Plume Cryptomeria (<i>C. japonica elegans</i>).....	12 in.	2.00
(Foliage fine and feathery, but very dense and compact. In summer a rich green, changing to purplish		

	Grade	Each
bronze in Winter. Handsome small tree.)		
CYPRESS—(See <i>Chamaecyparis</i>)		
FIR— <i>Abies</i> .		
White Fir (silver) (<i>A. concolor</i>).....	18-24 in.	3.00
White Fir (silver) (<i>A. concolor</i>).....	12-18 in.	2.50
(Very beautiful fir. Conspicuous on account of its ashy gray, often nearly white bark. Growth very regular and symmetrical. Leaves long and slender; light green.)		
HEMLOCK— <i>Tsuga</i> .		
Canada Hemlock (<i>T. canadensis</i>).....	2-3 ft.	3.00
(Tree attaining 70 ft. or more. Leaves dark green above, with two whitish lines beneath.)		
HOLLY— <i>Ilex</i> .		
English Holly (<i>I. aquifolium</i>).....	4-6 ft.	5.00
English Holly (<i>I. aquifolium</i>).....	3-4 ft.	4.00
English Holly (<i>I. aquifolium</i>).....	2-3 ft.	3.00
(Well known tree with leathery, dark green, prickly leaves. Inconspicuous flowers, and numerous red berries on fertile plants. Requires plenty of moisture.)		
Pyramid Holly (<i>I. aquifolium pyramidalis</i>).....	2-3 ft.	3.00
Pyramid Holly (<i>I. aquifolium pyramidalis</i>).....	18-24 in.	2.50
(Pyramidal form of English.)		
Variegated English Holly (<i>aquifolium variegata</i>).....	12-18 in.	2.75
(Having foliage variegated either silver or golden.)		
JUNIPER— <i>Juniperus</i> .		
Common Juniper (<i>J. communis</i>).....	2-3 ft.	2.00
Common Juniper (<i>J. communis</i>).....	18-24 in.	1.50
(Shrub with procumbent or erect branches. Sometimes tree becoming 40 ft. high. Foliage dark blue.)		
Spiny Greek Juniper (<i>J. excelsa stricta</i>).....	12-18 in.	2.50
(Upright juniper. This variety differs from the type principally in having a more tapering outline. Foliage decidedly glaucous, giving a distinct grayish aspect.)		
PINE— <i>Pinus</i> .		
Mugho Pine (<i>P. montana mughus</i>).....	4-6 ft.	5.00
Mugho Pine (<i>P. montana mughus</i>).....	3-4 ft.	4.00
(A densely branched tree. Upper branches erect; lower ones generally recumbent. Leaves dark green and stiff.)		
Scotch Pine (<i>P. sylvestris</i>).....	3-4 ft.	4.00
Scotch Pine (<i>P. sylvestris</i>).....	2-3 ft.	3.00
(Often planted as a screen in sand-dune regions to prevent drifting. Leaves dense, of a glaucous color, from inch and half to two inches long. Fine for grouping and backgrounds.)		
Western Yellow Pine (<i>P. ponderosa</i>).....	2-3 ft.	2.50
(Tree with stout spreading branches, forming a narrow, spire-like head. Leaves long, pointed and dark green.)		
White Pine (<i>P. strobus</i>).....	3-4 ft.	3.50
White Pine (<i>P. strobus</i>).....	2-3 ft.	2.50
(Very valuable ornamental Pine of rapid growth.)		

	Grade	Each
Symmetrical when young. Picturesque in old age. No tree better adapted to break up the sky-line in plantings.)		
REDWOOD — <i>Sequoia</i> .		
Redwood (<i>S. sempervirens</i>)	3-4 ft.	4.00
Redwood (<i>S. sempervirens</i>)	2-3 ft.	3.00
(Valuable ornamental tree of rapid growth and tapering, pyramidal habit. Sometimes reaches from 200 to 400 feet with diameter of 25 ft. Branches stand out horizontally from main stem. Leaves dark green with two pale bands beneath. Makes beautiful avenue or specimen tree. Known as California Redwood.)		
RETINOSPORA —(See <i>Chamaecyparis</i>)		
SPRUCE — <i>Picea</i> .		
Norway Spruce (<i>P. excelsa</i>)	2-3 ft.	3.00
Norway Spruce (<i>P. excelsa</i>)	1-2 ft.	2.00
(A compact, symmetrical tree, the branches assuming a graceful, drooping habit with age. Cones very large. Foliage light green. Extremely hardy and of rapid growth.)		
Selected specimen trees additional, according to the individual tree.		
YEW — <i>Taxus</i> .		
English Yew (<i>T. baccata</i>)	No stock.	
(Europe and North Africa. Tree of large shrub of slow growth, and very bushy head, densely branched and thickly covered with somber green leaves. Can be trimmed into any shape.)		
Irish Yew (<i>T. baccata fastigiata</i>)	No stock.	
(Peculiarly upright in growth, resembling a bundle of closely packed branches. The foliage is of the darkest hue, and the whole plant appears like a deep green column. Bears conspicuous red berries.)		

EVERGREEN SHRUBS

On account of retaining their foliage throughout the winter months, this class of shrubs is especially desirable for home beautifying and is fast growing in favor and use west of the Cascades. Many of these shrubs produce very attractive flowers. A good selection and well-arranged planting of evergreen shrubs is sure to give satisfactory results and much pleasure.

AUCUBA—*Aucuba*.

	Grade	Each
Golddust Aucuba (<i>A. japonica variegata</i>)	8-12 in.	1.00
(Similar to Japanese Aucuba, excepting leaves almost covered with yellow dots, soemtimes called spotted laurel. Excellent for tub culture, or planting out.)		
Japanese Aucuba (<i>A. japonica</i>)	6 in.	.75
(Shrub with dark green, shiny leaves; berries scarlet.)		
BARBERRY — <i>Berberis</i> .		
Magellan Barberry (<i>B. buxifolia</i>)	10-14 in.	1.00
Magellan Barberry (<i>B. buxifolia</i>)	6-10 in.	.75
(One to three ft. shrub; branches brown; grooved.		

Spines usually three-parted, short. Flowers solitary; orange yellow. Fruit blackish purple. Very graceful, free-flowering, and one of the hardiest of evergreen species.)	Grade	Each
Rosemary Barberry (<i>B. stenophylla</i>).....	12-18 in.	1.00
(Shrub with long, slender arching branches. Leaves small, long and narrow. Dark green above; silvery beneath. Spiny pointed with revolute margins. Flowers deep golden yellow.)		
Darwin's Barberry (<i>B. darwini</i>).....	12-18 in.	1.50
(Shrub with many slender branches, drooping toward tips. Leaves small, rich green, prickly like Holly. Many of the leaves turn bright red in fall, holding this tint through winter. Flowers golden yellow, produced in utmost profusion early in spring. Berries blue. One of the very finest small evergreen shrubs.)		
BOX—Buxus.		
Silver Box (<i>B. sempervirens argentea</i>).....	8-12 in.	.85
(Similar to Truetree Box but with leaves edged white.)		
Truetree Box (<i>B. sempervirens arborescens</i>).....	12-18 in.	1.25
(Variety with larger leaves. Somewhat faster in growth, and will make small tree later. These are available in either globe or pyramid form.)		
BROOM—Cytisus and Genista.		
Kew Broom (<i>G. kewensis</i>).....	3 ft.	2.50
Kew Broom (<i>G. kewensis</i>).....	12 in.	1.00
(A variety originated in the Kew Gardens of England. Low growing, globe shaped; dark green twigs and foliage producing bright yellow blooms in profusion. The spread rather than height determines size of plant.)		
Paradise Broom (<i>C. scoparius andreanus</i>).....	3-4 ft.	2.50
(Beautiful variety of the yellow Scotch Broom, with pea-shaped flowers, having side petals of deep mahogany red; being very free bloomer, it is most desirable.)		
CHERRY-LAUREL—Laurocerasus.		
English Cherry-Laurel (<i>L. officinalis</i>).....	18 in.	1.25
(Large shrub or even small tree, with broad, heavy glossy leaves. Flowers are white, in erect racemes, followed by black cherry-like fruits. There are several varieties which differ in the shape and color of leaves.)		
Portugal-Laurel (<i>L. lusitanica</i>).....	10-14 in.	1.50
Portugal-Laurel (<i>L. lusitanica</i>).....	8-10 in.	1.00
(Easily distinguished by its somber, very dark green sharply serrated leaves. Growth compact; flowers white in very long slender racemes. Easily one of the handsomest evergreen shrubs and excellent for tub culture.)		
COTONEASTER—Cotoneaster.		
Simons Cotoneaster (<i>C. simonsi</i>).....	2-3 ft.	1.50
(Dense and upright in growth. Leaves dark green. Showy, bright red fruits borne along the stems. Semi-evergreen.)		

	Grade	Each
EUONYMUS—Euonymus.		
Spreading Euonymus (<i>E. patens</i>).....	24-30 in.	1.75
(Low-growing, spreading shrub with green twigs and thick, leathery, shiny foliage. Desirable in group planting and in rockeries.)		
FIRETHORN—Pyracantha.		
Laland Firethorn (<i>P. coccinea lalandi</i>).....	24-30 in.	2.50
Laland Firethorn (<i>P. coccinea lalandi</i>).....	18 in.	1.75
(Large, thorny shrub with small ovate leaves, making long shoots, which can be trained against a wall if desired. Bears great profusion of small, white flowers followed by mass of orange-red berries in fall.)		
GORSE—Ulex.		
Common Gorse (<i>U. europaeus</i>).....	2-3 ft.	2.50
(Much branched. Very spiny and rigid shrub. Flowers yellow and fragrant.)		
HOLLYGRAPE—Mahonia.		
Oregon Hollygraps (<i>M. aquifolium</i>).....	18-24 in.	2.50
Oregon Hollygraps (<i>M. aquifolium</i>).....	12 in.	1.50
(Well known native shrub of medium size, with dark green leaves, which become coppery purple during winter. New growth very glossy. Flowers are bright yellow in slender, erect, clustered racemes followed by a profusion of dark blue berries.)		
HONEYSUCKLE—Lonicera.		
Evergreen Bush Honeysuckle (<i>L. nitida</i>).....	18-24 in.	1.25
Evergreen Bush Honeysuckle (<i>L. nitida</i>).....	12-18 in.	1.00
(Handsome shrub with dark green ovate leaves about half an inch long. Fine for hedges or single specimens. Can be pruned in any desirable form for pot culture. With other flower sprays can be used as table decoration with good effect. A rapid grower.)		
Privet Honeysuckle (<i>L. pileata</i>).....	12-16 in.	1.00
Privet Honeysuckye (<i>L. pileata</i>).....	8-12 in.	.75
LAUREL—(See Cherry-Laurel).		
OREGON GRAPE—(See Hollygrape).		
PRIVET—Ligustrum.		
Chinese Privet (<i>L. sinense</i>).....	3-4 ft.	1.50
Chinese Privet (<i>L. sinense</i>).....	2-3 ft.	1.00
(Shrub with very leathery pointed leaves; dark green above; light green beneath. Flowers white; very fragrant; in long erect panicles.)		
Quihou Privet (<i>L. quihoui</i>).....	3-4 ft.	1.50
(Shrub with spreading branches. Leaves narrow, oblong. Flowers in small clusters at end of branches, with long paniced spikes.)		
PYRACANTHA—(See Firethorn).		
SKIMMIA—Skimmia.		
Japanese Skimmia (<i>S. japonica</i>).....	6-12 in.	.50
(Evergreen shrub, bearing small white flowers in terminal panicles, and showy, bright red berry-like fruit. Handsome for borders, and used for Christmas berry plant.)		

	Grade	Each
WEAVERS-BROOM—Spartium.		
Weavers-Broom (<i>S. junceum</i>).....	3-4 ft.	1.50
(Ornamental shrub with long, slender branches; small foliage, and yellow flowers. Handsome shrub; suited to planting on sandy and exposed surfaces.)		

VINES AND CREEPERS

AMPELOPSIS—

Engelmann Creeper (<i>A. quinquefolia engelmanni</i>).....	2-year	..75
(Form of Virginia Creeper but hardier and with more dense foliage, and cup-shaped tendrils which cling to walls.)		
Virginia Creeper (<i>A. quinquefolia</i>).....	3-year	.50
(Very well known. Leaves large with five leaflets. Berries dark purple with a bloom; borne on red stalks. Foliage turns intense scarlet in fall.)		

JAPANESE CREEPER—Ampelopsis.

Ampelopsis tricuspidata—Boston Ivy (<i>A. veitchi</i>).....		.75
(Distinct from Virginia Creeper. Leaves on young plants are divided into three leaflets, but on older plants are merely three-lobed. Foliage dense and glossy. Adheres to brick, stone or even wood. Foliage turns yellow and red in fall later than Virginia Creeper and persists longer.)		

BITTERSWEET—Celastrus.

Ornamental Bittersweet (<i>C. orbiculatus</i>).....	3-year	1.00
(High-climbing shrub; vigorous grower. Berries orange yellow, with crimson seeds.)		

CLEMATIS—Clematis.

Jackman Clematis (<i>C. jackmani</i>).....	3-year	1.00
(Single large flowers; intense violet purple; very free bloomer, and most popular variety known.)		
Sweet Autumn Clematis (<i>C. paniculata</i>).....	3-year	1.00
(Flowers white; fragrant; very small, but borne in great profusion during late summer.)		
Traveler's Joy (<i>C. vitalba</i>).....	3-year	.75
(Most vigorous climber. Flowers white, with faint odor of almonds.)		

CREEPERS—(See Ampelopsis and Euonymus).

DUTCHMAN'S PIPE—(Aristolochia siphon)	2-year	.75
(Rapid growing climber, with large, round dark leaves, and brownish colored flowers resembling a pipe.)		

EUONYMUS—Euonymus.

Bigleaf Wintercreeper (<i>E. radicans vegetus</i>).....	24-30 in.	1.00
(Low, spreading evergreen shrub which can be used with good success as a climber, reaching a height of 20 to 30 ft. Hardy, evergreen plant bearing great clusters of attractive berries. Leaves 1 to 2 in. in length; rather thick, dark green in color, broadly oval in shape. As a climber this plant is comparatively new and is far superior to English Ivy.)		
Silveredge Wintercreeper (<i>E. r. argenteo-marginatus</i>)	6-12 in.	.75
(Shrub which sometimes becomes a climber; Leaves		

	Grade	Each
rather small; silvery white around edge; dark green towards center; faintly marked with light green.)		
HONEYSUCKLE—Lonicera.		
Hall Japanese Honeysuckle (<i>L. japonica halliana</i>).....	2-year	1.00
(Growth strong and dense. Leaves bright green above, greyish green below. Flowers white, changing to yellow. Very fragrant.)		
Yellownet Japanese Honeysuckle (<i>L. japonica aureoreticulata</i>)	2-year	.75
(Vine with younger leaves netted with bright yellow. Does not bloom as freely as the type, and is more tender. Good for low trellises or to cover ground amongst shrubs.)		
IVY—Hedera.		
English Ivy (<i>H. helix</i>).....	3-year	.75
(Very well known vine. Good for covering rocks, walls, or tree trunks to which it clings.)		
JASMINE—Jasminum.		
Winter Jasmine (<i>J. nudiflorum</i>).....	18 in.	.75
(Variety with smooth angle branches, and alternate leaves of three to five oval leaflets. Flowers golden yellow borne in terminal clusters.)		
PERIWINKLE—Vinca.		
Common Periwinkle (<i>V. minor</i>).....	Single Clumps Per 100 Plants	.50 12.50
Common Periwinkle (<i>V. minor</i>).....		
(Good for planting on banks or under dense shade of trees where they make splendid ground cover plants. Sometimes used in boxes or hanging baskets. Has small leaves.)		
WISTERIA—Wisteria.		
Chinese Wisteria (<i>W. sinensis</i>) (purple or blue).....	2-year	1.00
(Deciduous vine of rapid and extremely strong growth. Flowers pea-shaped in long, drooping clusters; borne in great profusion in early spring.)		
Longcluster Wisteria (<i>W. multijuga</i>).....	2-year	1.50
(A Japanese variety; distinct from other types in the length of the clusters of flowers, which are sometimes 4 feet long. Much looser than the Chinese form. Comes into bloom later when the leaves are appearing.)		
White Chinese Wisteria (<i>W. sinensis alba</i>).....	3-year	1.00
(Same as purple with exception of color of flowers, which are white.)		

GRASSES

BAMBOO—

Arrow Bamboo (<i>Arundinaria japonica</i>).....	Clumps	1.00
(Noted for its very large leaves. Canes slender and erect. Ornamental and when well established yields abundance of straight, strong canes.)		

EULALIA—Miscanthus.		
Eulalia (<i>M. sinensis</i>)	Clumps	1.00
(Hardy perennial grass, growing four to five feet and resembling pampas grass on a smaller scale. Blooms have clustered, silky hairs, giving feathery appearance.)		
PAMPASGRASS—Cortaderia.		
Common Pampasgrass (<i>C. argentea</i>).....	Clumps	1.00
(Very widely cultivated grass with white bloom.)		
YUCCA—Yucca.		
Common Yucca (<i>Y. filamentosa</i>).....	Clumps	1.00
(Desert plants with spiny pointed leaves; white flowers, like lillies, are borne in large panicles on a stalk rising above leaves.)		
ZEBRA GRASS (<i>Miscanthus Sinensis zebrinus</i>).....	Clumps	1.00
(Tall, perennial grasses resembling pampas grass but on a smaller scale; leaves slightly narrower, and with broad white bands across them.)		

BULBS AND BULBOUS PLANTS

DAHLIA—Dahlia. Mixed only.

	Per 6	Per 12	Per 25
Sold in not less than six on an order.....	2.00	3.75	7.00
(Cultivation of the Dahlia is given a great deal of attention. These are very showy and brilliant autumn flowering bulbous plants, continuing over long period.)			

IRIS—Iris. (Sold in lots of 6 or more.

	Grade	Each	Per 12
Purple	Clumps	.50	5.00
Mixed	Clumps	.50	5.00
(These are bulbous root plants, thriving best in moist soils. Stems simple or branched. Flowers from one to many in terminal heads.)			

NARCISSUS—Narcissus. (Sold in lots of 6 or more.

Mixed only	Clumps	.25	2.50
(Among the choicest spring flowering bulbs, and very hardy.)			

PEONY—Paeonia. (Sold in lots of 6 or more.

Pink	Roots	.50	5.50
Red	Roots	.50	5.50
White	Roots	.50	5.50
Yellow Center	Roots	.75	7.50

(Hardy, herbaceous perennial with large leaves. Very showy and in delicacy of tint and fragrance more nearly approaches the rose than any other flower. Grown in all kinds of soil, but does better in deep, rich loam.)

PERENNIALS

All Perennials sold in not less than 6 of a kind.

BABYS BREATH—(See *Gypsophila*)

BELLFLOWER—*Campanula*.

		Per 6	Per 12	Per 25
Double Blue	Clumps	2.00	3.50	6.00
Double White	Clumps	2.00	3.50	6.00
Single Blue	Clumps	2.00	3.50	6.00
Single White	Clumps	2.00	3.50	6.00
(Hardy garden flower, showing variety of form; some tall, some dwarf. Like rich soil.)				
CAMPION — <i>Lychnis</i> .				
Maltese Cross (<i>L. chalcedonica</i>).....	Clumps	2.00	3.50	6.00
(Hardy plant; easy to grow. Long, simple stalks. Leaves oblong and upper ones tapering. Flowers brick red to scarlet. Arrangement of petals suggests Maltese Cross. Known as scarlet lightening, and Jerusalem Cross.)				
CERASTIUM — <i>Cerastium</i> .				
Snow-in-Summer (<i>C. tomentosum</i>).....	Clumps	1.50	2.50	4.00
(Desirable low-growing plant, with silvery foliage and white flowers in May. Suitable for rockeries of carpeting dry, sunny spots.)				
COREOPSIS — <i>Coreopsis</i> .				
Lance Coreopsis (<i>C. lanceolata</i>).....	Clumps	2.00	3.50	6.00
(Popular hardy plant. Flowers rich golden yellow. Graceful in form; good for cutting. Commences blooming latter part of June, continuing during entire summer and autumn.)				
DAISY —				
Shasta Daisy	Clumps	2.00	3.75	7.00
(Combination of size, grace, abundance and general effectiveness of flowers borne on long, clean stems, white or cream colored, four to five inches across.)				
FOXGLOVE — <i>Digitalis</i> .				
Mixed Only	3-year	2.00	3.50	6.00
(Old-fashioned, dignified and stately flower. Indispensable to a complete garden. Strong flower stalks, growing often 4 ft. to 6 ft. high give appearance of strength during the blooming period.)				
GERMANDER — <i>Teucrium</i>	3-year	2.00	3.50	6.00
(These are hardy herbs with aromatic foliage, suitable for the wild garden or rock-work. Flowers are mostly pinkish or purple.)				

		Per 6	Per 12	Per 25
GOLDENGLOW —Hort. var. of <i>Rudbeckia laciniata</i>	Clumps	2.00	3.50	6.00
(Distinct, tall-growig hardy perennial from 6 to 7 ft. high. Foliage deeply cut; bright green; flowers very double; rich, golden yellow; two to three inches in diameter, borne on long, smooth stems, forming for the tall plant a solid head of blooms. Excellent for cutting.)				
GYPSOPHILA — <i>Gypsophila</i> .				
Babysbreath (<i>G. paniculata</i>).....		1.75	3.00	5.50
(Plant will thrive in any soil in sunny position. Old-fashioned but beautiful, possessing a grace not found in any other perennial. Blooms during July and August, forming a symmetrical mass of minute, pure white flowers, giving a beautiful, gauze-like appearance.)				
LARKSPUR — <i>Delphinium</i>	2-year	2.00	3.50	6.00
(Hardy plants with large, irregular flowers, sometimes double. Thrive best in deep, rich, sandy loam, exposed to the sun.)				
LAVENDER — <i>Lavandula</i> .				
Sold singly or otherwise.....	Clumps	Singly .75	Per 12 7.00	
(Plant with green or glaucous leaves. Flowers in terminal spikes and of a blue tint. Retain their strong, fragrant odor after drying.)				
LYCHNIS —(See <i>Campion</i>).				
PHLOX — <i>Phlox</i> .				
Mixed Only	3-year	Per 6 1.50	Per 12 2.50	Per 25 4.50
(Very satisfactory garden plant. Neat habit. Bright colored flowers. Profuseness of bloom, and ease of culture make them favorites everywhere.)				
POPPY — <i>Papaver</i> .				
Oriental Poppy (<i>P. orientale</i>).....	3-year	1.50	2.50	4.50
(For rich and gorgeous display of brilliant coloring nothing equals these plants during blooming period. Flowers are large, and after dying back in the spring, will bloom again in the fall.)				
ROCK CRESS — <i>Arabis</i>	Clumps	1.25	2.25	4.00
(One of the most desirable of early spring flowering plants; especially adapted for edgings, rock gardens, and borders. Forms a dense carpet, completely covered with white flow-				

ers. Splendid for cutting and lasts a long time in bloom.)				
ROSEMALLOW—Hibiscus	3-year	1.75	3.50	6.00
(Desirable border plant, doing best in damp places. Grows three to five feet high, with large foliage and large showy flowers of delicate coloring produced during the entire summer.)				
SAXIFRAGE—Saxifraga				
Heartleaf Saxifrage (<i>S. cordifolia</i>	3-year	1.75	3.00	5.00
(A perennial herb with perfect small white, yellow or purplish flowers; grown as rock garden plants, and sometimes for borders.)				
SPIDERWORT—Tradescantia.				
Virginia Spiderwort (<i>T. virginiana</i>)	3-year	1.50	3.00	5.50
(A perennial herb in habit, varying from erect, bushy species to trailing plants. Flowers are from red to blue and white, and usually solitary.)				
THYME—Thymus	Clumps	1.50	3.00	5.50
(Low half shrubby perennial with mint-like odor; leaves small; flowers mostly in shades of blue or purple in head-like clusters.)
